

TestcaseGenratorWithLangflowChat

Goal: To create a single output html that generates testcases in langflow chat. Options to copy, export test cases also included

MD file to achieve above goal

```
1 Context
2 You are an AI Assistant HELPING IN DEV > hos Aa ab . * ? of 1 ↑ ↓ ≡ ×
3 INSTRUCTIONS:
4 STEPS
5 1) [MANDATORY] Create a fully functional single-page HTML UI for an AI-powered Testcase
6 Generator
7 2) [MANDATORY] Give the user friendly instructions on how to use the Testcase Generator
8 3) [MANDATORY] Give an option to copy paste the sample user stories for banking domain
9 4) [MANDATORY] Implement clear option to clear the chat
10 5) [MANDATORY] Implement copy option to copy the chat output
11 6) [CRITICAL] Embed the Langflow chat interface for Testcase generation at top right with
12 proper css styling and also proper alignment
13 <script src="https://cdn.jsdelivr.net/gh/langflow-ai/langflow-embedded-chat@main/dist/
14 build/static/js/bundle.min.js"></script>
15 with host_url,flow_id and API Key
16 7) [CRITICAL] Implement only Langflow chat without any settings showing the icon to open the
17 chat
18 8) [MANDATORY] Implement option to export the generated testcases from the chat output
19 8) [MANDATORY] Add Proper scrolling options with scroll bars
20 9) [MANDATORY] Use beige and navy as background theme
21
22 Example:
23 Sample Banking Domain User Stories to include:
24 1. As a customer, I want to transfer funds between my accounts so that I can manage my money
25 efficiently.
26 2. As a customer, I want to view my transaction history for the last 90 days so that I can
27 track my spending.
28
29 Output:
30 1)All HTML structure in one file
31 2)The Langflow chat widget script and embed configuration
32 3)No external dependencies except the Langflow CDN script
```

Vibe coding with some approvals and extra inclusions

AI-Powered Testcase Generator

Generate comprehensive test cases from banking domain user stories using AI

How to Use

1. Copy a sample story.

2. Open the chat icon at bottom-right.

3. Paste story and generate test cases.

4. Copy generated output from chat.

5. Paste into output section.

6. Export or copy results.

Sample Banking User Stories

As a customer, I want to transfer funds between my accounts so that I can manage my money efficiently.

As a customer, I want to view my transaction history for the last 90 days so that I can track my spending.

As a customer, I want to set up bill payments so that I can pay my bills automatically.

As a customer, I want to view my account balance and available credit so that I can make informed financial decisions.

As a customer, I want to enable two-factor authentication so that I can secure my account.
